ANY OTHER ADDITIONAL NOTES / INFORMATION

Hopefully we haven't been that ultimately suggestive couple telling you how to do your gig. Ultimately we trust you and your judgement as you are the one with the instinct and experience so we have full faith in you helping us make it a great night. We are just after a vibe, particularly once all the formalities are done and dusted, that will see everyone continue to build to a final hour where they are all just on their feet, singing, dancing and having a great time.

I also wasn't joking when I said I would love a sprinkling of heavy hip hop! Start with 'Humble' or 'King Kunta' and see where it leads. Realistically I think we'll only sneak 2 or 3 in before Anthea figures out my cunning plan but I will enjoy them nonetheless.

4 – YOUR TASTE IN MUSIC

If we have not yet connected on Spotify, please refer to the Spotify section on the website so we can find you and check it out. We often need the link to find you, as even though your Spotify account may just be your name as is on Facebook, it can be hard for us to search with your name only.

If you do not have a Spotify account with some public playlists we can have a little scroll through, could you please have a quick brain dump and just list some songs, artists, bands, radio stations etc that you like. This gives us a bit of insight into your taste in music.
